

## SEEK JOBS FOR CONVICTS

Dr. E. E. Dudding, founder and head of the Prisoners' Relief society, and his assistant, Miss Evelyn Abbott. The society has organized a campaign to raise a million dollars from a million people. One of its chief activities is the placing of ex-convicts in suitable jobs, 5,000 having been placed last year. The headquarters of the society are in Washington. Doctor Dudding is himself an ex-convict, who has devoted his life to prison relief work without pay.

## Utilizing Sun's Heating Power.

Many attempts have been made to utilize the heating power of the sun for engines, writes Charles G. Abbot. In the Youth's Companion, Sun-power pumping plants have been run experimentally on a large scale in California, New Mexico and Egypt. In some solar-power plants the rays are concentrated on steam boilers by mirrors. In others the sun heats shallow pools of water with blackened bottoms, and the hot water is used to run sulphur-dioxide or other low-pressure engines. The great trouble is that the first cost of the large contrivances for collecting solar heat and the small efficiency of the engines operating within such narrow ranges of temperature make solar plants a little too costly to compete with other

## Accounting for Ancient Eggs.

Mrs. Newlywed—Our cook says those eggs you sent yesterday were quite old.

Grocer—Very sorry, ma'am; you see, all the young chickens were carried off for the holiday trade, so the old hens are the only ones left to do the laying.

## HAWAIIAN BOOZE HOT STUFF

"Okolehea" Is the Product of Island's Moonshiners—Decoction Has Mule's Kick.

Washington.—The Hawaiian moonshiner has developed a product that is said to have a worse "edge" than any produced in continental United States.

It is "okolehea," which pronounced is not unlike the melody of a Swiss yodler. Prince Kalaninui says it means in plain vernacular "hot stuff," and has a kick that would put "old settin' hen," "stump run" and "mountain dew" in the shade.

"Okolehea" is a gin made from the root of a "ti-plum" or "dracena." It is distilled in the mountains and as there are but two or three revenue agents for the locality, the Hawaiian moonshiner has a comparatively easy time.

## Price of Pets Drops; Elephants Only \$2,000

London.—People who are looking for a pet which would make the neighbors talk may be interested to know that in London it is possible to buy from a dealer in wild animals an elephant for \$2,000, a tiger cub for \$800, a panther for \$700, a pig-tailed ape for \$60, and a python snake for \$50. Prices have dropped since the first cargoes since 1914 are arriving from Africa.

## JOURNEYINGS.

We are journeying on through the wear-

some heat

To a land that is fair as a dream.

Where the fluttering snowflakes will fall

at our feet

While the icicles glisten and gleam:

To the land where the shadows bring sil-

ence and sleep

By the river all frozen and still:

So a song we'll sing and our courage

we'll keep

And we'll journey along with a will.

And when we have come to the wonderful

place,

We will look through the window and see

The pictures of silver the frost loves to

trace

With a touch so fantastic and free.

The ferns flaunting fine and the flowers

so fair

Will bid us regretfully sigh—

And we'll thankfully take up the journey

from there

To return to the summertime sky.

## We'll Bet She Did.

They were seeing San Francisco. They had done Chinatown, the seals, a couple of museums and the spaghetti tunnel in Bay street. The evening

found them in Peacock alley watching the Frangipani parade. Finally one of them had an inspiration. She turned to her companion.

"Do you like art?" she queried.

"Oh, law, yes. Whenever I hit a big

blow in."

BAPTIST WOMEN TO  
RAISE \$15,000,000

FIFTH OF SUM SOUGHT IN FIVE-YEAR PROGRAM WILL COME FROM THEM.

## ARE DOING A LARGE WORK

Hospitals, Mountain Schools, Good Will Centers and Church Building Funds Maintained by Them in Addition to Regular Gifts.

Evidencing the larger sphere which women have come to occupy in church life, as well as other activities, when the Baptist 75 Million Campaign was decided upon at the meeting of the Southern Baptist Convention in Atlanta last May, the women, through their regular organization, the Woman's Missionary Union, at once agreed to be responsible for one-fifth of the sum sought, or \$15,000,000. This means that the Baptist women of the South will raise for missions of all kinds, Christian education and benevolences, the sum of \$3,000,000 a year for the next five years, in addition to their contributions to local enterprises and special work.

Through the channels of the Woman's Missionary Union, with headquarters at Baltimore, Md., the Baptist women of the South have since their organization contributed more than \$5,000,000 in cash to various denominational purposes. With the addition of boxes of food and clothing sent to orphanages and other benevolent institutions, the total of their contributions through this channel has reached \$5,710,433.71.

Miss Kathleen Mallory is the corresponding secretary of the Woman's Missionary Union, and in appreciation of the service she has rendered in that connection the Baptist women of Alabama have established the Kathleen Mallory Hospital for Women at Lairoh-Fu, Shantung, China, Miss Mallory being a native of Alabama.

Women of many of the other states have also undertaken special enterprises of their own. Those of Georgia, for instance, established the Ayers Hospital for Women at Hwanghien, China, a girls' school at Tumamoto, Japan, the Catherine Bryan Kindergarten School at Canton, China, and the Mary P. Willingham School for Girls at Blue Ridge, Ga., a school designed especially for the education of girls in the mountainous section of that state.

Many of the other state unions have special projects such as Good Will Centers in the tenement, factory and mining districts, where effort is made to bring more sunshine and enlightenment and love into the home and lives of needy families, especially those of foreign birth; church building funds, scholarships for young women who want to obtain training for special Christian service, and similar undertakings.

The general W. M. U., representing all the women of the Southern Baptist Convention, owns and operates the Women's Training School at Louisville, Ky., which has already sent out 700 trained women for special service in all parts of the world; and has established the Margaret Fund for the education in the Baptist schools of the South the sons and daughters of missionaries on the foreign fields, and the Fannie E. S. Heck Memorial, a church building fund established in honor of one of the greatest leaders Southern Baptist women have known.

But money for the support of these institutions as well as that for the payment of the women's pledge of \$15,000,000 in the 75 Million Campaign, will be raised by the actual work of the women and through economy and sacrifice. Church fairs, bazaars, suppers, ice cream socials and the like, are frowned upon by the organized Baptist women of the South as unworthy means for raising funds for carrying forward the work of the kingdom of God and their contributions will not come from this source, it is announced.

## Air Liner With All Comforts.

Trade Commissioner H. G. Brock, London, reports that upholstered armchairs on aluminum frames and a port-hole beside each seat are features of the newest type of airplane liner turned out. The manufacturers claim that it is the first of its kind. The newer liner can carry ten passengers in addition to two pilots. The fuselage is water tight and will float in case of descent into water. The machine is a tractor biplane, with two Rolls-Royce Eagle "S" engines of 350 horsepower each; it has a cruising speed of 85 miles an hour and a gasoline capacity of 200 gallons, and can rise readily to a height of 14,000 feet.

## The Potato.

In its native country, on the mountains of Chile and Peru, writes Jean Henri Fabre, in Field, Forest and Farm, the potato in its wild state is a poor diminutive tuber about as large as a hazelnut. Man takes the worthless wild stock into his garden, plants it in rich soil, tends it, waters it; and behold, from year to year the potato thrives more and more, gaining in size and in nutritive properties, and finally becomes a farinaceous tuber as large as your two fists.

## Big Men Good "Collectors."

When Henry Ford, John Burroughs and Thomas A. Edison were in Tilton, N. H., on a vacation trip, they joined the crowd at a Salvation Army meeting just as a Salvationist lassie was about to pass the tambourine. Mr. Edison gently took it from her hand and took up the collection, getting unusually generous contributions from the townspeople, who recognized him. Seeing the tambourine full, Mr. Ford said: "Why don't you pass your hat now?" and Mr. Edison replied: "All right, Henry, if you'll start me off with a good-sized contribution." Both Ford and Burroughs emptied their pockets then into Mr. Edison's hat. So did Edison himself, and then he turned over to the Salvation Army a tambourine and a hat full of money—just how much was not announced.

## Gets Many Proposals.

London.—The Uxbridge board of guardians has been appealed to by an ex-soldier, a widower with three children, who has advertised in vain for a nurse and housekeeper. "I have many replies," he said, "but all the women want to get married."

## Down to Brass Tacks.

This is a printer's slang phrase. When a compositor exhausts the type in his "case" and "gets down to brass tacks," it means that he is down to rock-bottom, or gone the limit.
